

ABSTRACT

Biaxially oriented polymeric films having a core layer of a voided propylene homopolymer with a density of not more than  $0.70 \text{ g/cm}^3$ , and at least one substantially non-voided layer on each surface of the core layer, the ratio of the combined thicknesses of the non-voided layers on the respective surfaces of the core layer being from 2:1 to 1:1. Films in accordance with the present invention have low curl, particularly after having been printed.
